AND LUX ON IFI'S WEBSITE.

We remind you that by clicking on "COLOUR FINISH/VERSIONS" of the 4 star furniture, you can amend the colors and finish of the composition, to choose the one that most suits your Client's requirements. This enables you to show your Clients a greater number of finishings compared to those photographed on the catalogue. Furthermore, the interactive mechanism ensures that the user can develop all the aesthetical proposals and choose with greater know-how.

We wait forward to see you on IFI's website, always updated with the newest display cases and furnishings!
